Spa Highlights:

Dallas Eight-Hand Massage

Bigger is said to be better in the Lone Star state, and guests can truly luxuriate in this Texas-sized treatment. With four therapists providing the ultimate synchronized eight-hand massage, "I'm melting" takes on a whole new meaning.

Prada Beauty

Exclusive and rare, Prada Beauty is a state-of-the-art facial program incorporating sophisticated massage therapies to drive dramatic skin care results. Administered by Prada-trained estheticians, Prada Beauty skin and body facials enhance lymphatic drainage and then extend results by presentation to the guest of a week's supply of treatment product. Available at only 12 Ritz-Carlton Spas in North America.

Shirodhara Journey

Inspired by the spiritual practices of the ancients, this 90-minute journey is designed to transport the guest to an altered state. It includes a head, foot and scalp massage, exotic anointing (warm oil that flows onto the forehead and through the hair) and an energetic hands-on "healing" to relieve deep stress, relax the mind and balance the emotions. Even "Type A" personalities may end up lulled into a deeply meditative, relaxed state, with the soul soothed and spirit renewed.

The Gentlemen's Zone

A unique program of men's treatments, the Gentlemen's Zone includes numerous choices including a gentleman's hot-towel facial, customized fitness and sports massage, executive manicure and an executive pedicure including a complete nail "detail."

Touch of Glamour

Think Audrey, Diana or Marilyn, as a makeover task force helps turn on the glamour for Dallas VIP occasions. A freshness-restoring Marine Facial, Exotic Gemstone Plunge and Bamboo Lemongrass Body Glow perfect the skin for the sheerest of party fashions. Evening makeup application, a manicure, pedicure and hair style or up-do finish off this head-to-toe Cinderella day. Freshly glamorized guests are sent off with a glass of bubbly.

Mama Mio for the Expectant Mother

The Ritz-Carlton, Dallas Spa offers an exclusive array of Mama's Touch maternity spa treatments. Designed to address the main causes of discomfort in pregnancy, from skin stress to leg heaviness, tired muscles and water retention, the innovative Mama Mio program offers soothing foot soaks, maternity massages, pregnancy-zone skin treatments and The Fourth Trimester Healing Hour ñ a special experience just for the new mom.

The Spa 101 Overnight Package

A perfect introduction to the joys of spa-going and the ideal hotel experience for spa newcomers who may be shy about asking sensitive spa questions. The package includes deluxe accommodations, breakfast for two, valet parking, a choice of two 50-minute spa treatments and a unique spa "how to" tutorial available either in written form before the guest's arrival or in a private and personalized orientation directly at the spa.

Dean's Margarita Salt Glow

A unique Dallas scrub inspired by the acclaimed margaritas of Texas Chef Dean Fearing. Fragrant lemon verbena and gentle exfoliating buffing salts are blended with stimulating extracts to soften the skin, while a 50-minute hydrating massage follows.

Texas Rain Bath

Guests "clean up" nicely with the Texas Rain Bath, building resistance to daily urban aggression and enhancing exfoliation, skin tone and elasticity. A therapist helps guide each guest to the right curative remedy from a selection of beneficial herbs and plants to include eucalyptus, juniper, rosemary, spruce, ginger, valerian and hops, wildflower, lavender, orange and linden blossom, melissa and vetiver.

Texas Hill Country Aromatic Manicure/Pedicure

Scruffy hands and feet will benefit from this 100% pure and natural scrub of buffing grains from fresh lemon verbena, an aromatic Native American herb that thrives in the nearby Texas Hill Country. The scrub is followed by a soothing milk-bath for hands and feet, after which a French lavender essence hand and foot massage and manicure or pedicure will be administered.

Passage to India

The ancient Indian healing science of Ayurveda is said to have restored health and balance to patients for hundreds of years. Using the potent regenerative properties of plants, herbs and essential oils, Ayurveda can assist in skin cell rejuvenation, balance enhancement and aging defense. The Ritz-Carlton, Dallas offers two Ayurveda-based experiences: Bindi Body Rejuvenation (a body mask of exotic herbs, followed by vigorous exfoliation, warm, herbal-infused massage oil and steam-towel compresses for the entire body) and Dosha Balancing (an opulent massage using warm herbal-infused body oil and moist heat compresses to aid in balancing, detoxification and nourishment of the nervous system).

Gemstone Therapy Massage

A step up from the traditional hot-stone massage, Gemstone Therapy features powerful glowing chakra gemstones positioned around the body in a powerful energy-healing treatment. A special blend of Payot mineral essences enhances the experience, which is designed to melt away both stress and muscle tension.
